Site Plan Temple Inn & Suites

Site Purpose: To show off the hotels and what they have to offer. It will show a safe place for people to stay and visit when trying to visit temples around the world.

Target Audience: Members of the Church of Jesus Christ of Latter-day Saints families. This could be for temple trips or for open houses. This is a place where families can stay when they want to go visit a temple and have nowhere to stay. This would be helpful for those coming into town for a family gathering such as a wedding.
